MANUAL OF SURFACE WEATHER OBSERVATIONS

CONTENTS

	Page
Record of Amendments	ix
Foreword	xi
INTRODUCTION	
Purpose	xiii
World Meteorological Organization (WMO)	xiii
Manual Content	xiv
Authority	xiv
Weather Observer	xiv
Duties	xiv
Priority of Duties	xv
Qualifications	xv
Weather Observing Station	xv
Points of Observation	xv
Surface Weather Observation	xv
Observations at Night	xv
Times of Observations	xvi
Quality Standards – Observations	xvi
Rounding of data	xvii
Corrections to Weather Records	xviii
Observer's Notebook	xviii
Meteorological Instruments	xviii
Instrument Manuals	xix
Distribution and Retention of Reports	xx
Station Name	xx

PART "A" OBSERVING PROCEDURES – GENERAL

CHAPTER 1 SKY

1.1	Celestial Dome	1-1
1.2	Layer Determination	1-1
1.3	Layer Identification	1-2
1.4	Layer Amount and Opacity	1-2
1.5	Direction of Motion of Layers	1-4
1.6	Height	1-4
1.7	Ceiling	1-5
1.8	Method of Determining Heights of Layers	1-6

CHAPTER 2 – VISIBILITY

2.1	General	2-1
2.2	Prevailing Visibility	2-1
2.3	Determination of Prevailing Visibility	2-1
2.4	Units of Measure	2-2
2.5	Variable Visibility	2-3
2.6	Guides in Determining Visibility	2-3

CHAPTER 3 – ATMOSPHERIC PHENOMENA

3.1	General	3-1
3.2	Tornadoes and Waterspouts	3-1
3.3	Thunderstorm – Definition	3-3
3.4	Precipitation	3-3
3.5	Obstructions to Vision	3-7
3.6	Visibility Reduced Below Eye Level	3-9
3.7	Measurement of Precipitation Amounts	3-9
3.8	Depth of Snow on the Ground	3-12
3.9	Intensity of Precipitation	3-12
3.10	Intensity of Precipitation with an Obstruction to Vision	3-15
3.11	Character of Precipitation	3-15
3.12	Notes on Unusual Weather	3-16

CHAPTER 4 – ATMOSPHERIC PRESSURE

4.1	General	4-1
4.2	Reading the Mercury Barometer	4-2
4.3	Barometric Pressure Computations	4-3
4.4	Altimeter Setting (QNH)	4-9
4.5	Digital Altimeter Display System	4-11
4.6	Pressure at the Official Aerodrome Level (QFE)	4-18
4.7	Pressure Tendency	4-18

CHAPTER 5 – TEMPERATURE

5.1	General	5-1
5.2	Dry Bulb Temperature	5-3
5.3	Wet Bulb Temperature	5-3
5.4	Operation of the Wet Bulb	5-4
5.5	Maximum Temperature	5-7
5.6	Minimum Temperature	5-8
5.7	Resetting and Check Readings – Maximum and Minimum Thermometers	5-8
5.8	Grass Minimum Temperature	5-9
5.9	Thermographs	5-9
5.10	Water Temperature	5-10

CHAPTER 6 – HUMIDITY

6.1	General	6-1
6.2	Dewpoint	6-1
6.3	Relative Humidity	6-1
6.4	Determination of Relative Humidity	6-1
6.5	Dewcel	6-2
6.6	Dewcel / Psychrometric comparisons	6-3
6.7	Hygrograph	6-4

CHAPTER 7 – WIND

7.1	General	7-1
7.2	Wind Instruments	7-2
7.3	Estimation of Wind	7-4
7.4	Reporting Wind – Hourly Observations	7-5
7.5	Reporting Wind – Synoptic Observations	7-6
7.6	Beaufort Scale of Winds	7-7

**CHAPTER 8 – SURFACE WEATHER RECORD –
FORMS 63-2322, 63-2330, 63-2325**

8.1	Purpose	8-1
8.2	General Instructions – Form 63-2322	8-3

PART “B” – HOURLY OBSERVATIONS**CHAPTER 9 – OBSERVING AND REPORTING PRIORITIES**

9.1	General	9-1
9.2	Scheduled Observations	9-1
9.3	Aircraft Accidents	9-3

CHAPTER 10 – RECORDING THE HOURLY OBSERVATION ON FORM 63-2322

10.1	General	10-1
10.2	Section II – Hourly Observations	10-1
10.3	Types of Observations	10-36
10.4	Section I – Observed Data and Computations	10-43
10.5	Section IV – Summary for the Climatological Day Ending at 0600 UTC	10-51

Modification n° 14 juin 1996

PART "C" – SYNOPTIC OBSERVATIONS

CHAPTER 11 – THE SYNOPTIC CODE – GENERAL DESCRIPTION

11.1	General	11-1
11.2	The Synoptic Code	11-1
11.3	Symbolic Form of the Synoptic Code	11-2
11.4	Interpretation of the Symbols	11-3
11.5	Content of the Coded Synoptic Message	11-11
11.6	Observing Schedule	11-13

CHAPTER 12 – THE SYNOPTIC CODE – DETAILED DESCRIPTION

12.1	General	12-1
12.2	Section 0	12-1
12.3	Section 1	12-2
12.4	Section 3	12-45
12.5	Section 5	12-66
12.6	Groups not reported by Canadian Land Stations	12-68

CHAPTER 13 – RECORDING THE SYNOPTIC OBSERVATION ON FORM 63-2322

13.1	General	13-1
13.2	Headings	13-1
13.3	Section I Observed Data and Computations	13-2
13.4	Section II (Hourly Observations)	13-9
13.5	Section III – Coded Synoptic Reports	13-9
13.6	Section IV – Summary for the Climatological Day Ending at 0600 UTC	13-10
13.7	Column 69 – Checked by	13-17
13.8	Typical Entries – Form 63-2322	13-18

PART "D" – SUPPLEMENTARY CODES

CHAPTER 14 – PILOT'S REPORTS

14.1	General	14-1
14.2	Aircraft Weather Observations	14-1
14.3	Encoding the PIREP	14-7

CHAPTER 15 – PILOT BALLOON OBSERVATIONS

15.1	General	15-1
15.2	Times	15-1
15.3	Colours	15-1
15.4	Form 63-2340 – Record of Pilot Balloon Ascent	15-2
15.5	Form 63-2339 – Monthly Summary of Pilot Balloon Observations	15-4
15.6	Coding Pilot Balloon Reports	15-5
15.7	Transmission of the Pilot Message	15-24

CHAPTER 16 – DECODING AUTOSTATION REPORTS

16.1	Autostation Reports – General	16-1
16.2	Monitoring of Autostation Reports	16-1
16.3	Hourly Code – Autostation Observation	16-2
16.4	Synoptic Code – Autostation Observation	16-11

PART “E” – ABSTRACTING AND RECORDING SUPPLEMENTARY DATA**CHAPTER 17 – MONTHLY CLIMATOLOGICAL SUMMARY – FORM 63-2320**

17.1	General	17-1
17.2	Entries on Form 63-2320	17-2
17.3	Conversion Table – Vapour Pressure with Respect to Dew Point	17-8
17.4	Preparation of the Monthly CLIMAT Message	17-9
17.5	Transmission of the CLIMAT Message	17-13

CHAPTER 18 – ABSTRACT OF WIND

18.1	General	18-1
18.2	Anemograph Chart 100B – Form 63-9605	18-1
18.3	Chart Changing	18-2
18.4	Entries on Anemograph Chart 100B – Form 63-9605	18-2
18.5	How to Abstract Wind Data	18-3
18.6	Disposal of Anemograph Chart 100B – Form 63-9605	18-6
18.7	Abstract of the Wind – Form 63-2306	18-7
18.8	U2A Wind Recorder Chart Rolls	18-12

Modification n° 14 juin 1996

Page

CHAPTER 19 – PRECIPITATION – TIPPING BUCKET RAIN GAUGE

19.1	General	19-1
19.2	Form 63-9686 – MSC Tipping Bucket Rain Gauge – Daily Chart 99	19-5
19.3	Form 63-9688 – MSC Tipping Bucket Rain Gauge – Weekly Chart 99W	19-14
19.4	Form 63-9689 – Recording Precipitation Gauge – Monthly Report	19-15
19.5	Nonstandard Recording Gauges	19-19
19.6	Form 63-9687 – Recording Precipitation Gauge – Monthly Report	19-19

CHAPTER 20 – METAR CODE

20.1	Interpretation Of The Symbols	20 - 2
20.2	Description and coding instructions for Canadian METAR Production ...	20 - 4
20.3	The METAR Code – Detailed Description	20 - 8
	WMO CODE TABLE 4678	20 - 10
	Appendix i	20 - 19
	Appendix ii	20 - 20

INDEX I-1 to I-32

APPENDIX 1 – CURRENT OBS. CIRCULARS

The Interpretation of the Visibility Index in MARS II Reports	OBS 1-76
Observations for Approach, Landing , and Take-Off	OBS 4-78
METAR Implementation	OBS 2-93
